対話1

Tomo: Did you call the bike shop this morning?

Ellie: Yes. They said my bike won’t be ready today. I can get it on Wednesday.

Tomo: You have tennis practice on Wednesday, don’t you?

Ellie: It was moved to Thursday. I’ll go to the shop on Wednesday after school.

Question. When will Ellie get her bike?

対話2

Jack: I found your red folder in the classroom, Nami. Do you need it now?

Nami: Thank you. I have to stay in the gym until five. Could you take it to the office?

Jack: I can bring it to the gym at five.

Nami: The office is better. I have to go there to get my bag anyway.

Question. Where does Nami want Jack to take the folder?

対話3

Saki: Let’s print twenty copies of the guide. We can give one to each student on the trip.

Hugo: Our teacher already made enough copies. But the meeting place on the guide is wrong.

Saki: Then let’s tell everyone to meet at the west gate, not the station.

Hugo: I’ll send that message to our group now.

Question. What will Hugo do now?

問題B 放送

Good morning. Here is some information about our visit to the city water center next Tuesday. We usually meet in our classroom before a school trip. This time, meet at the south gate at eight forty. There will be a bus for us, so you don’t need any train tickets. We will eat lunch in the center’s garden if it is sunny. If it rains, we will eat in a room on the first floor. Please bring your lunch and a drink, because the center’s shop will be closed. You can leave your notes in your bag during the morning tour. After lunch, you will work in pairs. I want each pair to use a pencil to make a drawing of one machine and write one question about it.

Question 1. Where will the students eat if it rains?

Question 2. What will each pair draw after lunch?
